

TWO BRITISH WARSHIPS AND MANY MEN LOST

German Submarines Sink One Ship Near London Other in Dardanelles

STEAMER ALSO SUNK WHILE AT HER DOCK

Only One Known Survivor of the Warship Sunk Near London--Dockmen Killed in Explosion

London, May 26.—The British battleship Majestic and her sister ship, the Campania, were sunk by German submarines yesterday morning. A third ship, the Princess Irene, was also sunk while at her dock.

At about the middle of the night the Princess Irene, which was in the harbor of the Campania coast service, was taken over by the Germans at the commencement of the war. It was evidently destroyed by an explosion while at anchor at the naval arsenal on the Dardanelles. The ship was undergoing repairs. A fire crew numbering about 200, except one seaman and 17 dockmen who were on board at the time, were killed.

WOMEN RENDER FIRST AID TO WOUNDED IN TRENCHES

The women of the Clearfield hospital have been found to be practically indispensable in alleviating the suffering of the wounded. It is the women who are the real heroes of the war. They are the ones who are the real heroes of the war. They are the ones who are the real heroes of the war.

SCHOOL CHILDREN INDULGE IN FUN AT DRIVING PARK

Pupils of Grade Schools Heartily Enjoy the Fine Weather and Eats

Future Presidents and Queens of Society Make an Impressive Appearance as They Parade the Streets on Their Way to the Park Where the First Annual Picnic Was Held.

Fifteen hundred Clearfield youngsters awoke this morning with an anxious question on their lips concerning the overcast behavior of the clouds. The old man of the clouds who is always elected to drench the earth on the very day young folks go on an outing.

Happy then, anxious glances out of the windows led with a view of bright sunshine, a promise of a wonderful picnic weather.

For today the kiddies of Clearfield are indulging themselves in the driving park while good things to eat are provided and fun for their young appetites and play and in the play make a day for an eight year old.

At ten o'clock the happy young ones were at the streets and after a few preliminary remarks he gave the word. The pupils from the different schools were double file to the driving park. The pupils from the different schools were double file to the driving park.

GERMANY IGNORES AMERICAN PROTEST AGAINST PIRACY

Sinking of Another Neutral Ship Regarded as Defiance of President's Request

Action of the Kaiser Casts Doubt Upon Any Assurance That May Be Given by Germany Respecting Safety of the American or Other Ships on the High Seas.

(By United Press)
Washington, May 28.—Germany is showing obvious disregard of the president's protest against the method of warfare which brought about the Lusitania tragedy.

Following the blowing up of the American ship Nebraska, Wednesday, the administration learned with grave concern that another neutral vessel had been torpedoed yesterday.

This was one of two which became the victims of German submarines, in the resumption of indiscriminate submarine attacks upon merchant ships.

One of the vessels is reported to be the administration ship, which was a British ship, the Nova Scotia, of Montreal, bound from Liverpool to Sydney, but the other was a Danish vessel, a neutral, and therefore as much entitled to immunity from attack as could be any vessel of the United States.

Whatever Germany may now say in reply to the president's note, the occurrence of past two days needs hardly cast doubt upon any assurance that may be given respecting the safety of American ships and lives.

80,000 Men Worked On Good Roads Day

Harrisburg, May 27.—By the time complete returns have been made to the state highway department it probably will be found that more than 100,000 men turned out Wednesday and worked on the roads of the state. This is indicated by the early official reports.

Reports at hand last night from more than fifty of the sixty-seven counties show that between 70,000 and 80,000 men worked on the roads and that they covered 5,000 miles. Three roads were virtually entirely new, and the highways of the unimproved type. Inclement weather prevailed generally all over the state. Had it been a clear day, the number of volunteers would have been trebled in the opinion of highway officials.

London, May 28.—Italian despatches from the 28 miles south of Gorizia, on the Adriatic, officially announce the capture of the city and that the forces were enthusiastically received by the residents.

A pitched battle between the Austrians and Italian armies at Trentino is rapidly drawing nearer. Queen Helena has placed three royal palaces at the disposal of the Red Cross.

Pope Benedict has granted the use of his villa and castle at Castelgarden, in the vicinity of the town of Mantova, as a hospital for the wounded. The railway line running to Gorizia and Trieste also passes through Mantova.

Mantova is twenty miles from Trieste, and the railroad line runs along the Adriatic coast for the entire distance, so that an army moving along that line would have constant support from the Italian fleet.

In the Adige valley, up which the Italian army is moving, the fighting has been confined to skirmishes. Heavier guns have been mounted on the Italian gunboats in the lake, which is traversed by the front line.

German reinforcements on the way. German reinforcements, including several regiments of Bavarians, are on their way to the threatened positions in southern Tyrol by way of Innsbruck. Forty-five trains are passing daily from Salzburg to Innsbruck with men and war materials. There is only one railroad line, the Innsbruck-Bressanone road, by which troops can be sent south of the front line.

PATENTS AND POLLY

By MOLLY M. MASTER

When Polly Woodward returned from a hard day in the office of her employer, picked up the small package that had been left in the seat next to her tired body. She was a little surprised to find it was a small box, and she opened it to find a small package. She was a little surprised to find it was a small box, and she opened it to find a small package.

When Polly Woodward had finished her evening meal she sat down with the patent and studied it minutely. An egg boiler, she mused, I wonder if it's any good or just like the other egg boilers. Curious to know, she took it to the kitchen and tried it. She was a little surprised to find it was a small box, and she opened it to find a small package.

WHAT THE WAR MAY EFFECT

Some Good Possible to Come Out of the Frightful Destruction Now Going On

To be war a dreadful calamity rather than a blessing. Members of the 44th branch of the World Presbyterian Alliance objected to the designs for the new flag. The resolution was adopted. The new flag was a European flag, and it was a European flag. The new flag was a European flag, and it was a European flag.

Perhaps the very best result that we may expect from the present conflict is that it will demonstrate war to be too costly too barbarous too inhuman to be a method of settling international differences. The new flag was a European flag, and it was a European flag.
